

# **DIRECTORS' REPORT**

The Directors of the company are pleased to present the financial results of the company for the year ended 30 June 2005.

#### □ Overview

During the year 2004-05 our strategic decision to create an independent sales management and distribution setup improved focus on the product portfolio. The positive economic indicators of the country provided a further impetus in a strong 18.38% sales growth for the company.

During the period under review, yet another milestone was achieved when the company successfully commissioned its fully automated finishing and packaging lines to provide better quality and value to its esteemed consumers.

The company has taken an I.T initiative by obtaining ERP (Enterprise Resource Planning) solution towards achieving its strategic objectives that would be in place in the next financial year. This would integrate the operations and enable real time access to information at all levels of operations and facilitate the management to take quick decisions that would improve the efficiency and effectiveness of the organization as a whole.

In June 2005 the Federal Budget 05-06 was presented in which the excise duty on soaps was finally abolished. This commendable action by the Government would enable the local industry to compete better with the influx of imported soaps. This relief allowed us to lower the price of our premium brand Capri to give even more value to our consumers.

All the three brands in the personal wash category witnessed a splendid growth, with Capri; the flagship brand of the company launched in a new international seal pack was introduced for the brand to give improved quality to the consumers that rejuvenated the sales of the brand. While the popular segment by far was the main growth impetus for the company's overall sale volumes.

This has been put into effect from July 2005 and the company is expecting some positive results due to these measures.
